Product Engineer with over 8 years of experience working remotely to create exceptionally smooth digital experiences through meticulous design and functionality. Proficient in front-end technologies and possessing a solid understanding of back-end technologies, I collaborate seamlessly across teams to ensure the delivery of user-centric solutions. I have effectively led teams and successfully delivered products, fostering an environment where individuals can thrive and do their best work.

WORK EXPERIENCE

Codivox

Mar. 2023 – Present

Sr. Product Engineer

Remote

- Teamed up with companies to lead the design and development life cycle for artificial intelligence-based web applications, including a data analyst tool to analyze and visualize user data within a flexible canvas.
- Reduced rendering time from 2-5s to 250-600ms for several projects, conducted code reviews, provided project estimations, and mentored fellow developers to ensure we all stayed aligned in our pursuit of excellence.

MonteCarloData

Feb. 2022 – Feb. 2023

Front-end Engineer

Remote (San Francisco, US)

- Shipped reusable UI components and integrated them across the site to increase efficiency and enhanced performance optimizations for search engine optimizations, resulting in increased traffic and a high conversion rate.
- Planned [website](#) and [blog](#) with design team, launched it using Twig and headless WordPress to boost company's productivity.

BoltSource

June 2019 – Feb. 2022

Front-end Lead

Remote (Texas, US)

- Oversaw a team of 4 developers to successfully shipped MVPs for startups, resulting in multiple companies receiving funding and one achieving Fortune 500 status.
